Happy New Year!!!

As soon as I was going to write about how unseasonable warm it has been, the weather suddenly took a change and reminded me of how cold it can actually get in the desert. However by the time you get this newsletter who knows if the weather will change again.

January is the month when we all make a vow to ourselves to make positive changes in our lives. Try to get organized, promise ourselves we'll eat better, lose weight (Gym memberships soar in January) I think the secret is giving ourselves small goals that are achievable and tackling them one at a time. For me, getting organized is top of my list this year....we shall see!

This last November was our first Teen Car Maintenance Clinic and it turned out to be quite a success! Mike talked about the basics of car maintenance such as

checking tire pressure, checking your oil, changing a flat etc...We also had Teen Driving Contracts available. Our goal is to educate young drivers and keep them as

safe as possible on the road. If you have a young driver, it's a good idea to have them add our phone number in their cell phone as well as a towing company. We

will always be more than happy to go over any maintenance concerns with them, just give us a call.

Best Wishes for a safe and happy new year!

Mike and Mac

Even though almost equal numbers of men and women spend time in the ocean, no one knows why sharks seem to prefer to attack men. In fact, nearly 90% of shark attacks have happened to men.

DURING THE GREAT DEPRESSION

During the Great Depression, a record 60-80 million Americans went to the movies every week. One of the biggest blockbusters was Merian C. Cooper's 1933 *King Kong*. Other popular movies included *The Wizard of Oz* (1939) and *Gone with the Wind* (1939).^c

The board game Monopoly, which first became available in 1935, became immensely popular perhaps because players could become rich—at least in their imagination.

A new look in women's fashion emerged in the 1930s. In response to the economic crisis, designers created more affordable fashions with longer hemlines, slim waistlines, lower heels, and less makeup. Accessories became more important as they created the impression of a "new" look

Hard work spotlights the character of people. Some turn up their sleeves. Some turn up their noses, and some don't turn up at all.

sones Thank you

for giving us your email address since this will allow us to send you updates, our newsletter and service reminders. Please email us your info to Sansonesind@aol.com and we will happily

TEEN DRIVING CONTRACTS SAVES LIVES

Fatal car crashes involving teen drivers fell by about a third over five years ending in 2008, according to a new federal report. The report partly credits the drop to tougher state limits on younger drivers

The Centers for Disease Control and Prevention, who made the study, say Wyoming had the highest death rate with about 60 traffic fatalities involving 16- and 17-year-old drivers per 100,000 people at that age. New York and New Jersey had the lowest rate at about 10 per 100,000.

New York prohibits teen driving until age 18. New Jersey essentially bans kids from driving until they are 17. Wyoming allows younger teens to drive until 11 p.m., while other states have a 9 p.m. deadline.

The number of teen deaths has been decreasing since 1996. CDC officials credit part of the decline to safer cars, airbags and highway improvements.

The most recent step forward in preventing teen fatalities is the parent-teen driving agreement. It helps new drivers and their families agree on such matters as the hours the teen will be allowed to drive, whether or not passengers will be allowed in the car, and promises to obey traffic laws.

Safe driving requires much more than what state laws call for, and signing an agreement before teens start driving is helpful in establishing expectations. The American Automobile Association provides a good example of a contract at www.aaaexchange.com/assets/files/2007214956500.parent_teencontract.pdf. Copy and paste the address into your browser.

The word "influenza" comes from the Italian *influentia* because people used to believe that the influence of the planets, stars, and moon caused the flu—for only such universal influence could explain such sudden and widespread sickness.

he beautiful number 7

Seven days of the week, seven seas, seven primary colors, seven wonders of the world, seven notes of the musical scale, the seven ages of man, seven deadly sins, seven levels of hell, seven categories for absolute judgment, the seven objects in the span of attention. Think 7-Up, Seven Dwarfs, The Magnificent Seven, seven-a-side. The sum of the opposite numbers in a pair of dice. Ask anyone to give you any number between one and ten and most will choose seven.
